Education

Kalinga Institute of Industrial Technology , B.Tech in Computer Science and Engineering	July 2023 – Present
• CGPA: 8.50 (as of 6th semester)	
Burnpur Riverside School , CBSE(XII)	2022 – 2023
• 93.4%	
Burnpur Riverside School , CBSE(X)	2020 – 2021
• 94.4%	

Experience

AI Intern, Infosys Springboard	Sept – Nov 2025
- Developed an NLP based resume–job description matching system to evaluate candidate skill fit. - Built an end to end pipeline for PDF resume parsing, text extraction and structured skill identification. - Used spaCy for Named Entity Recognition and skill extraction from resumes and job descriptions. - Implemented Sentence Transformers and BERT embeddings to compute semantic similarity scores.	

Projects

Nagaland Tourism Platform with AI Chatbot (MERN, RAG)	Dec 2025 – Present
- Built AI powered platform to provide itinerary planning and cultural insights with marketplace for local products and blogging platform. - Integrated RAG based chatbot for context aware travel recommendations. - Implemented Google OAuth with JWT session management and protected routes.	
Fraud Detection System (Machine Learning)	Dec 2025
- Built fraud detection ML model achieving about 90% accuracy. - Performed preprocessing and feature engineering. - Trained models using Python, Pandas, Numpy, Seaborn, Matplotlib and Scikit learn	
AI Resume Skill Gap Analyzer (Python, FastAPI, spaCy, SentenceTransformers, NLP, BERT)	Oct 2025
- Developed an AI-based resume evaluation system using NLP and transformer model. - Implemented hybrid scoring combining skill matching (70%) and semantic similarity (30%). - Designed APIs for resume review, JD matching, and job ranking.	

Skills

Languages: C, Java, Python, JavaScript
Web Development: React, Node JS, HTML, CSS3, Express
Database: MySQL, MongoDB
Data Analytic Tools: Matplotlib, Scikit-learn, Pandas, NumPy
Tools: Git, Github, Postman
Concepts: OOPS, OS, DBMS, DSA

Achievements

- Solved more than 100+ questions on LeetCode.
- MLSA Hackocalypse Hackathon Winner (Dec 2024)
